FEDERAL AID FOR ROADS NOT AVAIL- ABLE THIS SEASON

SENATE PASSES BILL FOR \$75,000,-
000—BUT NOT AVAILABLE
IN TIME

(By United Press)
St. Paul, Aug. 20.—Federal aid for highway construction in Minnesota and other states will not be available this season, Commissioner Babcock said today. In spite of passage of the \$75,000,000 highway bill by the senate the 1921 apportionment will not be available in time to help Minnesota's \$20,000,000 a year improvement program.

Commissioner Babcock said he received information that the house would not consider the highway bill until after the coming recess, and that some differences were yet to be ironed out in conference.

"We regret this situation because the department is making every effort not only to give early benefit to the public but to furnish employment at this time and through the winter," Commissioner Babcock said.

"Indications are however that the department can not open any more projects this season and postponement of the 1921 federal aid prospects can not be avoided," he said.

SENATE PASSAGE OF ROAD BILL CUTS STATE ALLOTMENT

Minneapolis, Aug. 20.—Reduction of \$710,000 in the allotment of federal funds for Minnesota road building is involved in the passage by the United States senate of an amendment to the federal good roads bill, reducing the appropriation for this year from \$100,000,000 to \$75,000,000. This means a 25 per cent cut in the allotment to each state, Minnesota highway officials said. The state received \$2,540,000 last year, and the cut would reduce this to \$2,130,000.

Under the bill one-third of the appropriation is to become immediately available.

NORTHWEST NEWS

Elks Will Entertain Thousands
St. Cloud, Aug. 20.—St. Cloud Elks are planning on entertaining thousands of their brothers at the state convention here next week.

The convention will open August 24 and last three days. The first official session will be Wednesday evening at the Benton county fair grounds. A band concert will feature the evening. Several high Elks will address the gathering.

Justice by Phone

Winnipeg, Aug. 20.—Meeting out justice over the telephone is the modern method of Magistrate T. Logan at Rivers.

Norman Sergeant was too busy in the harvest field to appear in court to answer to a charge of speeding. He phoned the judge and pleaded guilty. The judge advised him he was fined \$10 and costs. A check was promptly mailed.

Commissioners Can't Designate Type

Minot, Aug. 20.—County commissioners cannot designate the type to be used in printing official proceedings according to a decision handed down by District Judge John Lowe in the action of the Bow Bells Printing company versus the commissioners of Burke county.

One Fourth Delinquent.

Bismarck, Aug. 20.—About one-fourth of the 9,000 individuals and firms subject to the state income tax were delinquent July 15, when a penalty of five per cent is added.

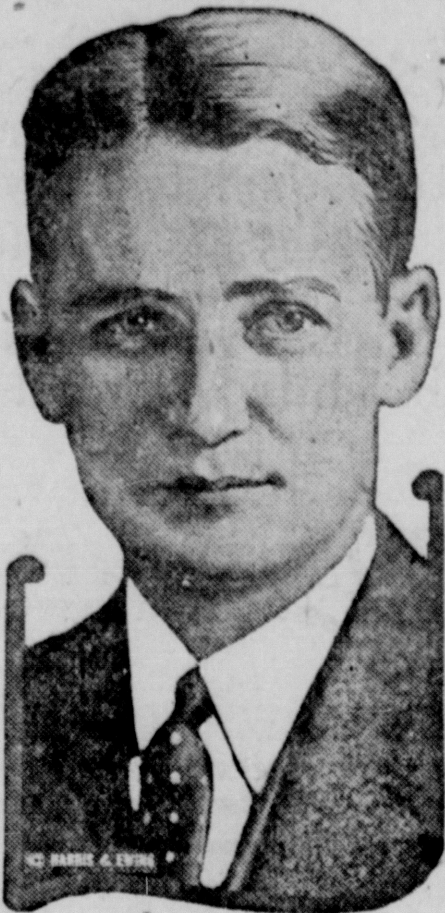

Mrs. Mallory Wins Nat. Tennis Championship

Forest Hills, N. Y., Aug. 20.—Mrs. Molla B. Mallory, conquerer of the French marvel, Suzanne Lengler, retained her title as America's national tennis champion this afternoon when she defeated the California star, Miss Mary K. Browne by 4-6, 6-4, 6-2.

It was one of the hardest fought battles ever fought in a championship match.

At the end of the second set with the two women tied, it looked as if either one might emerge the winner.

GEORGE W. PERKINS, JR.

George W. Perkins, Jr., newly appointed executive secretary to Postmaster General Hayes. He is the son of the late George W. Perkins, one of the founders of the Progressive party and close personal friend of the late Theodore Roosevelt.

MOB STORMS JAIL TO LYNCH NEGROES AND ARE REPULSED

ONE MAN IS KILLED AND FIFTY
ARE INJURED, TWO BEING
WOMEN

(By United Press)

Knoxville, Tenn., Aug. 20.—One man was killed and more than fifty wounded when a mob stormed the jail here last night. The mob wanted to lynch E. R. Martin, a negro, alleged assailant of Miss Jessie Park, a young school teacher. The would-be lynchers crossed a deadline into the fire of the authorities and guards at the jail. The crowd included many women, some of them with babies in their arms. Two of those shot were women. The attack upon the jail followed that of watchfulness on the part of authorities, police reserves and two machine gun companies. Fire from shot guns handled by deputy sheriffs and machine guns from the militia swept the streets. As two members of the mob fell the fire was returned.

Is Madalynne Obenchain Shielding Other Woman

(United Press)

Los Angeles, Aug. 20.—Madalynne Obenchain is shielding the "other woman" in the life of John Belton Kennedy, according to information gathered today by investigators for the prosecution.

In this connection the authorities were weighing Madalynne's statement that she can free herself on charges of complicity in the killing of Kennedy any time she wishes to tell the whole story of what happened during the night of the murder at Beverly Glenn. Additional confirmation on the theory that Kennedy was shot by relatives of the other woman came today when Mrs. Antoinette Coan, aged invalid and confidant of Mrs. Obenchain, said she had admitted to the authorities that Madalynne had told her of this mysterious woman.

LONG HARD WINTER IS PREDICTED

(By United Press)

St. Paul, Aug. 20.—Dust the old beny and dig out the long ones—it is going to be a long hard winter.

Forest lore indicates an early fall and cold winter according to reports to State Forester W. T. Cox. Old woodsmen, he said, are observing the "signs that never fail."

Birds and wild duck are congregating for flight south. Bluejays, winter residents, are building their nests heavy. Muskrats are building their houses large and early. Slough grass has dried and there is an Indian summer haziness in the air.

TWO ARE KILLED 100 INJURED, IN WISCONSIN STORM

PROPERTY DAMAGE IS ESTIMATED
AT \$1,000,000 RESULTING
FROM

BARN, SILOS AND OUTBUILDINGS
BEING BLOWN OVER AND
CROPS DESTROYED

(By United Press)

Milwaukee, Wis., Aug. 20.—Two persons were dead and from fifty to one hundred injured in a devastating storm which swept over Wisconsin late Friday afternoon. Property damage was estimated at \$1,000,000 resulting from barns, silos and outbuildings being blown over and crops of corn laid low. The storm was the most severe in Sheboygan county where damage was placed at more than \$100,000 and the list of injured at twenty.

Racine county reported a damage estimated at \$100,000 with crops badly damaged.

Michael Corey, a farmer at Verona, was killed when his barn collapsed, and L. D. Hayes, 64, of Janesville, perished when caught under a falling tree. Yachtsmen participating in the race at Oshkosh, suffered heavy losses when thirteen of the fourteen boats in the race were capsized.

WHAT LONDON DOES IN THE HEAT WAVE

BY DAVID L. BLUMENFELD,
(United Press Staff Correspondent)

New York, Aug. 20.—"By jove, it's hot."

That is what they are saying in London now. They think it's hot. It isn't really. Over here we should say, "What a glorious day," and revel in the cool breeze.

But in London, "It's a jolly hot day," by George.

Of course, to Londoners, what we call a cool day seems like a furnace. They never get what we are having now. Still that does not prevent thousands of perfectly good Englishmen mopping their perfectly dry brows and groaning on omnibus tops and in tube trains against the "awful" heat.

There are no such things as Palm Beach suits in England. People wear slightly thinner clothes in summer-time—that's all. Why, if a man were to stroll past the Ritz Hotel in a white Palm Beach, or walk up Bond street at noon in a mohair suit, he would have a procession in his wake in less than no time. "Good Lord," people would say; "just look at that fellow. Must be mad—what?" And they would go home and tell their wives about it.

In the evenings the people sit out in the parks. No, they do NOT take off their coats. They tilt their hats just a wee bit to the backs of their heads, undo their top vest buttons, and think they are being delightfully daring.

Until I came to America I had never seen a man ride in a railway train without his coat.

If a few well-known men set the example of taking off their coats in English trains, everybody would do it. As it is, such things are "not done." Probably the only offices in London today where people work in their shirtsleeves are the newspaper offices. There they do it, winter and summer alike.

No British journalist is any good unless he works in his shirt-sleeves. That's a tradition dating back some 30 odd years. I fancy Mark Twain taught it them.

Just now it's about 4 o'clock in London, and mothers and daughters and best girls and their best boys will all be making for Selfridge's store on Oxford street to get an "American ice cream soda."

Selfridge's is the only place in London where they can make a real sundae, and going to Selfridge's in the "heat wave" is an event—things date back from the last visit to that emporium.

"Let me see," mother will say, "when did Jack come home?" . . . Oh, yes, of course, the fifteenth. Just the day after that ice cream we had at Selfridge's."

100 ARE KILLED IN UPRISING IN ARGENTINE

(By United Press.)

Buenos Aires, Aug. 20.—One hundred persons are reported to have been killed in the course of an uprising in the village of Malta, Brazil, according to a dispatch from Dio De Janeiro received here today.

The government of the state of Maranhao has received official telegrams asking further information of the report which said the soldiers had fired upon a crowd.

NORTHWEST GETS 7 1/2 CENT REDUCTION ON MOVING GRAIN

Minneapolis, Aug. 20.—A cut of 7 1/2 cents a hundred pounds on grain moving to the seaboard for export from the central freight district comprising Indiana and surrounding states, was extended to apply to the northwest by the interstate commerce commission, meeting the demand of Minneapolis shippers.

The information was received by the Minneapolis Traffic association from its managing director, W. P. Trickett, who is in Washington attending a commission hearing.

The order is expected to go into effect soon. The 30 days' notice was waived. The railroads volunteered this cut, because, it was said, their export business has been affected by lake and St. Lawrence river competition.

BANDITS ROB AUTO PARTY OF \$17,000 WORTH OF JEWELRY

(By United Press)

Detroit, Mich., Aug. 20.—Bandits held up one Detroit man and two women near Mount Clemens today, robbing them of \$17,000 worth of diamonds and jewelry, stole their automobile and escaped.

M. Glasner, Miss Dorothy Stevens and Miss Anna Goldman were returning to Detroit when they were forced to stop by a tree which had been thrown across the road by bandits.

NATION-WIDE SLUMP IN BEEF CONSUMPTION

CAUSES CHICAGO LIVE STOCK EX-
CHANGE TO WARN FARMERS TO
KEEP CATTLE OFF MARKET

(By United Press)

Chicago, Aug. 20.—Farmers keep your cattle off the market. That was the warning broadcast through the cattle growing country today by the Chicago Live Stock Exchange.

Raisers, dealers and shippers were urged to restrict shipment of cattle to packing centers due to the glutted market. Additional heavy shipments it was said, would again demoralize livestock prices. The demand for dressed beef has come to a standstill, packers said, with the markets glutted. There has been a nation-wide slump in the consumption of beef, packers believe, due to the fact that more than five million are unemployed in the country and to high retail prices. A heavy oversupply of beef has reached the packers recently as a result of the campaign waged through the west by bankers and merchants urging farmers to declare if the farmers will keep their livestock off the market it will also aid in breaking the retail meat prices which packers contend have been kept on a profiteer basis by the retail butcher.

Mrs. Hoover's Mother Dies.
Stanford University, California, Aug. 20.—Mrs. Charles Henry, mother of Mrs. Herbert Hoover, died at the Hoover home last night.
Mrs. Hoover is now enroute here from Washington.

2 TOWNS DESTROYED BY A CLOUDBURST

500 RESIDENTS FLEE NEW MEXI-
CAN TOWN IN NIGHT CLOTHES
TO SAFETY.

Las Cruces, N. M., Aug. 20.—The town of Hatch, N. M., 38 miles north of here, was destroyed by a flood, following a cloudburst, according to information received by the Chamber of Commerce here. The 500 residents, escaped to the hills, most of them in their night clothes. No loss of life was reported.

A cloudburst struck Santa Tereza, a village in the foothills two miles west of Hatch, about 3 a. m. Only one dwelling was left at Santa Tereza.

Two hours later the wall of water rushed into Hatch, the male residents assisting the women and children to the hills, abandoning everything.

A businessman, bedridden by a long illness, was carried to the hills by neighbors. So far as learned there was no loss of life.

From three to seven feet of water lies in the stricken village. Officials of the United States reclamation service say there is no way to drain the water off except to dig a deep canal.

One hundred and fifty residents are being cared for with supplies sent under charge of relief committees from Las Cruces Chamber of Commerce.

Farmers armed with shotguns are guarding the bank of the Rio Grande south of here to prevent raising of the floodgates. The farmers insist that raising of the floodgates will ruin their crops without being of material benefit to the flooded district.

DES MOINES WANTS STREET CARS AGAIN

(By United Press)

Des Moines, Iowa, Aug. 20.—Des Moines wants her street cars back if they can deliver real service.

After nearly a month of bus riding while the street cars gathered rust in the barns, negotiations to again start the street car service were coming to a head under pressure from the retail merchants. Street car service was abandoned when the company could not make expenses in face of jitney bus competition.

The busses have done remarkably well taking it from the average Des Moines rider. Eighty-four busses have carried an average of 72,000 persons each day. Everyone rides now but comfort and regularity has been sacrificed. The street system with cars running on regular schedule would be preferred.

MRS. ANGUS M'LAY

Mrs. Angus M'Lay, oldest daughter of the secretary of agriculture and Mrs. Henry C. Wallace. Her home is in Detroit.

THE SINN FEIN CONSIDER ISSUING A MANIFESTO

POINTING OUT THE ALLEGED UN-
FAIRNESS OF THE BRITISH
PEACE OFFER

(By United Press)

Dublin, Aug. 20.—The Sinn Fein today seriously considered issuing a manifesto to the world pointing out the alleged unfairness of the British peace offer.

Members of the Dail Eireann in private conferences discussed this alternative to counter proposals.

The issuance of such a manifesto would be considered a preliminary to a resumption of hostilities. Despite the favorable reception of Lloyd George's speech in other than Sinn Fein circles, the republican cabinet was reported to feel that it had been "double crossed" by the British premier.

WOMAN OFFICIALLY DEAD RETURNS; HAS RECORDS CORRECTED

(By United Press)

St. Louis, Aug. 20.—Papers which declared Mrs. Serena Gilliland dead were corrected by the county court at Granite, Ill., today.

The body of a woman found buried three months ago in a grave yard near Granite City was positively identified as that of Mrs. Gilliland.

"Her" body was buried beside her mother, near Belleville. Mrs. Gilliland proved she was very much alive when she arrived from Cincinnati.

Her husband, who was arrested at Terre Haute, Ind., in connection with the supposed death, was given his freedom. Coroner Miser said a second inquest would not be necessary as the original verdict "homicide by persons unknown" still stands. Police today endeavored to identify the victim.

TICKET AGENTS ENJOY FISH FRY

(By United Press.)

Minneapolis, Aug. 20.—Railroad ticket agents of the country in annual convention here were guests at an old fashioned fish fry today.

Chas. Kinkadee, 70, of Walker, Minnesota, Minnesota's fish fry expert, was in charge of the ceremony at Spring Park, Lake Minnetonka.

Harding Accepts Press Presidency of the World

(By United Press)

Columbia, Mo., Aug. 29.—President Harding has accepted the honorary presidency of the Press Congress of the World, Walter Williams, president of the body, announced today. Harding was previously a regular member of the congress.

LEGISLATIVE JAM THREATENS RE- CESS OF CONGRESS

HOUSE BUSINESS IN GOOD SHAPE
BUT IMPORTANT BILLS TIED
UP IN SENATE

Washington, Aug. 20.—Congress yesterday was in a legislative jam that threatened to prevent the month's recess scheduled to begin Wednesday.

The chief obstacles in the way of the recess are:

1—The Longworth bill extending the dye embargo, with the senate amendment extended by the emergency tariff bill.
2—The deficiency bill carrying \$48,500,000 for the shipping board, and \$200,000 for the expenses of the disarmament conference to which Senator Harrison has offered an amendment to put the senate on record as favoring publicity at the parleys.
3—The anti-medicinal beer bill.

The trouble over these bills centers in the senate. The McNary bill to aid farmers through the war finance corporation seems likely to pass the house and be ready for the president's signature by next Wednesday, and the tax bill has clear sailing.

Before the recess President Harding wants:

1—The tax revision bill passed in the house and sent to the senate finance committee for consideration during the recess.
2—The railroad relief bill passed by both houses.
3—The McNary farm aid bill passed by both houses.

LATE BULLETINS

Kiwanis Clubs Elect Officers.

Red Wing, Minn., Aug. 20.—John Pollock, of Fargo was elected district governor of the Kiwanis clubs of Minnesota and North and South Dakota today.

Grand Forks was picked as the 1922 meeting place.

A. E. Pickart of Minneapolis, G. E. Morris of Mitchell, South Dakota, and L. A. Alton of Grand Forks were chosen lieutenant governors for the states in the district.

J. H. Marshall of Minneapolis was named secretary-treasurer.

Clark Escapes Abductors.

Chicago, Aug. 20.—Eric Clarke, kidnapped near Jimenez, Mexico, and held for \$75,000 ransom, escaped from his abductors according to a message received by the office of the International Land & Live Stock company here today. Clarke was connected with the company.

"I am safe, thanks to my fine saddle mare," the telegram from Clarke said.

Shoots Former Boss.

St. Paul, Aug. 20.—An old grudge against his boss caused Gust Peterson to shoot Charles Forsberg last night. Forsberg, general traffic manager of the St. Paul city lines, died four hours later with three bullets in his body. Peterson shot himself through the head dying instantly.

British Accept Officially.

London, Aug. 20.—Great Britain's acceptance to President Harding's invitation to a disarmament conference was dispatched to Washington this afternoon.

The acceptance of the British government was couched in most cordial terms.

Police Capture Detective Force.

Minneapolis, Aug. 20.—Police surrounded the home of George E. Smith, former congressman, last night when neighbors reported five men were seen to enter the place.

Police rushed the door and captured five detectives of the day force who had been planted there to catch prowlers. The night force had not been informed the day force had been called.

Free Soup Bone Appears

Chicago, Aug. 20.—New signs of normalcy appeared today in Chicago butcher shops. The old time soup bone was given away free again by Chicago butchers, J. T. Russell, president of the Chicago meat concerns, announced.

NATION-WIDE SLUMP IN BEEF CONSUMPTION

CAUSES CHICAGO LIVE STOCK EX-
CHANGE TO WARN FARMERS TO
KEEP CATTLE OFF MARKET

(By United Press)

Chicago, Aug. 20.—Farmers keep your cattle off the market. That was the warning broadcast through the cattle growing country today by the Chicago Live Stock Exchange.

Raisers, dealers and shippers were urged to restrict shipment of cattle to packing centers due to the glutted market. Additional heavy shipments it was said, would again demoralize livestock prices. The demand for dressed beef has come to a standstill, packers said, with the markets glutted. There has been a nation-wide slump in the consumption of beef, packers believe, due to the fact that more than five million are unemployed in the country and to high retail prices. A heavy oversupply of beef has reached the packers recently as a result of the campaign waged through the west by bankers and merchants urging farmers to declare if the farmers will keep their livestock off the market it will also aid in breaking the retail meat prices which packers contend have been kept on a profiteer basis by the retail butcher.

Mrs. Hoover's Mother Dies.
Stanford University, California, Aug. 20.—Mrs. Charles Henry, mother of Mrs. Herbert Hoover, died at the Hoover home last night.

Mrs. Hoover is now enroute here from Washington.

2 TOWNS DESTROYED BY A CLOUDBURST

500 RESIDENTS FLEE NEW MEX-
ICO TOWN IN NIGHT CLOTHES
TO SAFETY.

Las Cruces, N. M., Aug. 20.—The town of Hatch, N. M., 38 miles north of here, was destroyed by a flood, following a cloudburst, according to information received by the Chamber of Commerce here. The 500 residents escaped to the hills, most of them in their night clothes. No loss of life was reported.

A cloudburst struck Santa Tereza, a village in the foothills two miles west of Hatch, about 3 a. m. Only one dwelling was left at Santa Tereza.

Two hours later the wall of water rushed into Hatch, the male residents assisting the women and children to the hills, abandoning everything.

A businessman, bedridden by a long illness, was carried to the hills by neighbors. So far as learned there was no loss of life.

From three to seven feet of water lies in the stricken village. Officials of the United States reclamation service say there is no way to drain the water off except to dig a deep canal.

One hundred and fifty residents are being cared for with supplies sent under charge of relief committees from Las Cruces Chamber of Commerce. Farmers armed with shotguns are guarding the bank of the Rio Grande south of here to prevent raising of the floodgates. The farmers insist that raising of the floodgates will ruin their crops without being of material benefit to the flooded district.

DES MOINES WANTS STREET CARS AGAIN

(By United Press)

Des Moines, Iowa, Aug. 20.—Des Moines wants her street cars back if they can deliver real service.

After nearly a month of bus riding while the street cars gathered rust in the barns, negotiations to again start the street-car service were coming to a head under pressure from the retail merchants. Street car service was abandoned when the company could not make expenses in face of jitney bus competition.

The busses have done remarkably well taking it from the average Des Moines rider. Eighty-four busses have carried an average of 72,900 persons each day. Everyone rides now but comfort and regularity has been sacrificed. The street system with cars running on regular schedule would be preferred.

MRS. ANGUS M'LAY

Mrs. Angus M'LAY, oldest daughter of the secretary of agriculture and Mrs. Henry C. Wallace. Her home is in Detroit.

THE SINN FEIN CONSIDER ISSUING A MANIFESTO

POINTING OUT THE ALLEGED UN-
FAIRNESS OF THE BRITISH
PEACE OFFER

(By United Press)

Dublin, Aug. 20.—The Sinn Fein today seriously considered issuing a manifesto to the world pointing out the alleged unfairness of the British peace offer.

Members of the Dail Eireann in private conferences discussed this alternative to counter proposals.

The issuance of such a manifesto would be considered a preliminary to a resumption of hostilities.

Despite the favorable reception of Lloyd George's speech in other than Sinn Fein circles, the republican cabinet was reported to feel that it had been "double crossed" by the British premier.

WOMAN OFFICIALLY DEAD RETURNS; HAS RECORDS CORRECTED

(By United Press)

St. Louis, Aug. 20.—Papers which declared Mrs. Serena Gilliland dead were corrected by the county court at Granite, Ill., today.

The body of a woman found buried three months ago in a grave yard near Granite City was positively identified as that of Mrs. Gilliland.

"Her" body was buried beside her mother, near Belleville. Mrs. Gilliland proved she was very much alive when she arrived from Cincinnati.

Her husband, who was arrested at Terre Haute, Ind., in connection with the supposed death, was given his freedom. Coroner Miser said a second inquest would not be necessary as the original verdict "homicide by persons unknown" still stands. Police today endeavored to identify the victim.

TICKET AGENTS ENJOY FISH FRY

(By United Press.)

Minneapolis, Aug. 20.—Railroad ticket agents of the country in annual convention here were guests at an old fashioned fish fry today.

Chas. Kinkele, 70, of Walker, Minnesota, Minnesota's fish fry expert, was in charge of the ceremony at Spring Park, Lake Minnetonka.

Harding Accepts Press Presidency of the World

(By United Press)

Columbia, Mo., Aug. 20.—President Harding has accepted the honorary presidency of the Press Congress of the World, Walter Williams, president of the body, announced today. Harding was previously a regular enrolled member of the congress.

LEGISLATIVE JAM THREATENS RE- CESS OF CONGRESS

HOUSE BUSINESS IN GOOD SHAPE
BUT IMPORTANT BILLS TIED
UP IN SENATE

Washington, Aug. 20.—Congress yesterday was in a legislative jam that threatened to prevent the month's recess scheduled to begin Wednesday.

The chief obstacles in the way of the recess are:

1—The Longworth bill extending the dye embargo, with the senate amendment extended by the emergency tariff bill.

2—The deficiency bill carrying \$48,500,000 for the shipping board, and \$200,000 for the expenses of the disarmament conference to which Senator Harrison has offered an amendment to put the senate on record as favoring publicity at the parlays.

3—The anti-medicinal beer bill.

The trouble over these bills centers in the senate. The McNary bill to aid farmers through the war finance corporation seems likely to pass the house and be ready for the president's signature by next Wednesday, and the tax bill has clear sailing.

Before the recess President Harding wants:

1—The tax revision bill passed in the house and sent to the senate finance committee for consideration during the recess.

2—The railroad relief bill passed by both houses.

3—The McNary farm aid bill passed by both houses.

LATE BULLETINS

Kiwanis Clubs Elect Officers.

Red Wing, Minn., Aug. 20.—John Pollock, of Fargo was elected district governor of the Kiwanis clubs of Minnesota and North and South Dakota today.

Grand Forks was picked as the 1922 meeting place.

A. E. Pickart of Minneapolis, G. E. Morris of Mitchell, South Dakota, and L. A. Alton of Grand Forks were chosen lieutenant governors for the states in the district.

J. H. Marshall of Minneapolis was named secretary-treasurer.

Clark Escapes Abductors.

Chicago, Aug. 20.—Eric Clarke, kidnapped near Jimenez, Mexico, and held for \$37,500 ransom, escaped from his abductors according to a message received by the office of the International Land & Live Stock company here today. Clarke was connected with the company.

"I am safe, thanks to my fine saddle mare," the telegram from Clarke said.

Shoots Former Boss.

St. Paul, Aug. 20.—An old grudge against his boss caused Gust Peterson to shoot Charles Forsberg last night. Forsberg, general traffic manager of the St. Paul city lines, died four hours later with three bullets in his body. Peterson shot himself through the head dying instantly.

British Accept Officially.

London, Aug. 20.—Great Britain's acceptance to President Harding's invitation to a disarmament conference was dispatched to Washington this afternoon.

The acceptance of the British government was couched in most cordial terms.

Police Capture Detective Force.

Minneapolis, Aug. 20.—Police surrounded the home of George E. Smith, former congressman, last night when neighbors reported five men were seen to enter the place.

Police rushed the door and captured five detectives of the day force who had been planted there to catch prowlers. The night force had not been informed the day force had been called.

Free Soup Bone Appears

Chicago, Aug. 20.—New signs of normalcy appeared today in Chicago butcher shops. The old time soup bone was given away free again by Chicago butchers, J. T. Russell, president of the Chicago meat concerns, announced.

THE WEATHER

Minnesota—Fair tonight and Sunday, continued cool to night, rising temperature Sunday in the west portion.

Forecast for next 24 hours:

Cooperative observers record:
Aug. 19—Maximum 60.
Reading in evening 60. North-west wind. Cloudy. Trace rain.
Aug. 20—Minimum during night, 45.

TWO ARE KILLED IN AEROPLANE FALL

(By United Press)

Preston, Minn., Aug. 20—Going into a nose dive at the request of a passenger, Pilot Herbert Riebe, of Rochester, was instantly killed late yesterday when the plane crashed from a height of two thousand feet. R. C. Burton, manager of a string of moving picture houses, died a few minutes after the crash.

Burton had asked Riebe to show him the nose dive after they had got up. Riebe started to dive and is believed to have fallen into an air pocket and struggled to right the machine but could not.

Riebe was a graduate of the North Dakota agricultural college at Fargo.

Substitute for Stanley Amendment Agreed To

(By United Press)

Washington, Aug. 20—An agreement to a substitute for the Stanley anti home search and seizure amendment to the beer bill was reached here today by the senate and house conferees.

The substitute, which was insisted upon by Rep. Volstead, the house dry leader, dropped the word "property."

This, it was pointed out, would enable the dry agents to search bootleggers' cars without search warrants.

With the exception of this modification the substitute is substantially the same as passed by the senate.

Admits He Faked Stillman Assassination Story

(By United Press)

Kansas City, Mo., Aug. 20—Samuel R. Harris, 29, of New York city, has admitted to police chiefs that he faked the story he told yesterday of having been offered \$25,000 by an unidentified man to participate in a plot to murder Mrs. Edna Stillman. He said he wanted to get his name in the paper.

TWO ARE KILLED
IN AEROPLANE FALL

(By United Press)

Preston, Minn., Aug. 20—Going into a nose dive at the request of a passenger, Pilot Herbert Riebe, of Rochester, was instantly killed late yesterday when the plane crashed from a height of two thousand feet. R. C. Burton, manager of a string of moving picture houses, died a few minutes after the crash.

Burton had asked Riebe to show him the nose dive after they had got up. Riebe started to dive and is believed to have fallen into an air pocket and struggled to right the machine but could not.

Riebe was a graduate of the North Dakota agricultural college at Fargo.

Substitute for Stanley
Amendment Agreed To

(By United Press)

Washington, Aug. 20—An agreement to a substitute for the Stanley anti home search and seizure amendment to the beer bill was reached here today by the senate and house conferees.

The substitute, which was insisted upon by Rep. Volstead, the house leader, dropped the word "property."

This, it was pointed out, would enable the dry agents to search bootleggers' cars without search warrants.

With the exception of this modification the substitute is substantially the same as passed by the senate.

Admits He Faked Stillman
Assassination Story

(By United Press)

Kansas City, Mo., Aug. 20—Samuel R. Harris, 20, of New York city, has admitted to police chiefs that he faked the story he told yesterday of having been offered \$25,000 by an unidentified man to participate in a plot to murder Mrs. Fifi Stillman. He said he wanted to get his name in the paper.

Off To Market

Our Buyers:- Will leave tonight for the Eastern Dry Goods Markets where they will study the latest Styles and buy New Goods for the good people of Brainerd.

DISTRICT REPORTS INDEX GOOD ROADS

Superintendents Summarize Activities in Local and Nearby Zones, Better Roads Under Way

GOOD MAINTENANCE PROVIDED

Weak Sections in Long Mileages of Otherwise Good Roads are Being Built Up

New construction and maintenance operations on state trunk highways under Babcock Plan in this locality are briefly set forth in current bulletins from district maintenance superintendents.

Policies of first providing good maintenance on all parts of the trunk route system and building up weak sections in long mileages of otherwise good roads have resulted in a general distribution of permanent improvement projects and early general benefits official figures show.

Trunk highway developments in this section include the following:

Trunk Highway No. 1

One of the big tractor fleets in this district has finished re-shaping the Brainerd-Aitkin section and now is working between Aitkin and Rossburg.

Improvements are being made also on the section between Motley and Staples.

Trunk Highway No. 18

New construction is under way now on the section east of Brainerd. A big crew began operations there last week and the work is to be pushed, Superintendent Moulster says, because speed is part of the state highway program.

Trunk Highway No. 19

Marking of trunk highways with yellow stars and numbers and back-grounds in black is going ahead. Markings between Brainerd and Walker were completed this week on Trunk No. 19.

In general maintenance work is beginning to show results, according to reports in the office of A. W. Moulster, Pine River, district maintenance superintendent.

Trunk Highway No. 3

Heavier maintenance is being placed on the St. Cloud Melrose section. Clay and gravel is being hauled on and the oversized stones are being removed. A fleet of tractors and graders recently reshaped the section from St. Cloud to St. Joseph and rains, it was said, will finish the job making a noticeable improvement over the old road. Two constant-duty patrolmen are employed there.

Trunk Highway No. 18

Clay and gravel resurfacing is being put on the Princeton-Zimmerman section and a competent man has been employed to keep it in good condition. A heavy maintenance force is at work on the section north from Princeton, one of the best in the district. A patrolman with extra help is improving the section north of Onamia.

Trunk Highway No. 24

Claying operations were started recently on the section west from St. Cloud which was full of chuckholes. A truck fleet employed on the work is making a better record than would

be possible with teams, it is reported. A proposal to reshape the St. Cloud-Kimball section was abandoned because of the sandy soil.

Trunk Highway No. 27

Grading operations on a large scale are being pushed on the St. Cloud-Royalton section in advance of paving planned next year. Mike Barrett, contractor on a 70,000 yard project, began work June 30 and moved 7,500 yards in the first 30 days. Wilkins & Pettyjohn with a 102,000 yard contract, started operations July 2 and have moved more than 20,000 yards to date.

Special efforts are being made to maintain a good detour on this section. Because of the heavy traffic three extra men are helping the patrolman.

Trunk Highway No. 69

Grading will start at once on the section extending northwesterly from Buffalo. For these operations, three big army tractors equipped with heavy blades have been transferred to this district.

Robert D. Jorgens, St. Cloud, district maintenance superintendent, takes pride in the competency of his patrolmen, virtually all of whom are experienced in road work. They have purchased graders and other standard maintenance machinery, with the exception of a few who are using county graders.

About seventy patrolmen and two fleets of tractors and trucks are re-shaping and smoothing trunk highways in the St. Cloud district.

Roads in this district are rated in good condition generally, considering recent weather conditions which have not been favorable to effective maintenance.

First Baptist Church
The Bible school opens at 9:45 a. m. with interesting classes and teachers for all grades. Dr. Jos. Nicholson, supt.

At 11 o'clock morning worship with sermon by Rev. H. Putnam Chaffee of Moline, Ill. Mr. Chaffee is visiting at Gull Lake this summer and is an acquaintance of the pastor formerly in Indiana. He will bring a good message.

In the evening the pastor will preach on the subject "America's Hour". Let every member of the church be present to greet the strangers.

The B. T. P. U. will meet at 7 o'clock for their session.
The church of the cordial welcome.

First Methodist Church

Leonard D. Fackler, of Chicago, who is now on vacation in this vicinity will preach in the First Methodist church next Sunday morning, August 21st, at 10:30 o'clock. Mr. Fackler is publicity manager of the Intercollegiate Prohibition Association and was national secretary of the Prohibition party. He is an expert scout master and is desirous of speaking to all the boys and young folks and their parents. It is hoped that all the folks in the Sunday school as well as the older members of the congregation will hear Mr. Fackler.

The Bible school will meet at 12 o'clock in its regular session. All departments will be in operation and we look now for increased attendance. There will be no service in the evening.

A. Cooke, Minister.

Lightning Rods.
If a lightning rod is properly grounded, the danger arising from the use of non-insulated fasteners is negligible. Years ago the use of glass insulators set in outriggers was very common. It was a good but perhaps an unnecessary practice. If a rod is well grounded in wet earth a bolt of lightning is not likely to leave a good conductor and enter a poor one.

Bressler-White
The marriage of Miss Virginia Bressler, daughter of Mr. and Mrs. A. Bressler, to Eugene White of Brainerd, was most romantic and came as a surprise to many friends who had no inkling of the event.

It occurred Friday afternoon at Nisswa and the ceremony was performed by Judge J. T. Sanborn. Witnesses to the pleasing ceremony were Mrs. Walter F. Wieland and Fred L. Sanborn.

The home of Mr. and Mrs. Bressler is in Owensboro, Kentucky, and annually they spend several months of recreation at Gull Lake. The bride is an accomplished and charming young girl. The bridegroom is employed by the Minnesota & International railway and is the son of C. B. White. He was born and raised in Brainerd and is a graduate of the Brainerd high school.

Condemned.
Well, we are all condemned as Victor Hugo says; we are all under sentence of death, but with a sort of indefinite reprieve... we have an interval, and then our place knows us no more. Some spend this interval in listlessness, some in high passions, the wisest, at least among the children of this world, in art and song.—Walter Pater, in The Renaissance.

Lammon's
THE STORE WITH A CONSCIENCE
BRAINERD MINN.

Be Free From Tan---

By the simple process of carefully anointing the face, hands and all exposed skin with Nyal Face Cream previous to going outdoors in the sun, on the auto ride or in bathing and afterwards washing the face and again anointing it with our cold cream, tan can easily be prevented. If, on the other hand, tan appears and you want to avoid the unsightly peeling or the distressing burn, our Nyal Face Cream will do the work. It makes an excellent all-round toilet application for all purposes at all times. Something to be depended upon, something to be admired.

MEMBER

ORGANIZED

SATURDAY, AUGUST 20, 1921

SUGAR BEET RAISING

We understand that a party of sugar beet factory men, representing factories in Minnesota and Michigan, will make a tour of inspection through northern Minnesota in September, with a view to establishing one or more factories at convenient locations. There is local talk also of the possible location of a factory at Fisher or Thief River Falls.

It is claimed that the sugar content of beets produced in northern Minnesota is higher than the sugar content of southern Minnesota. The soil also is more adaptable to sugar beet raising. Farmers who have experimented say that beets net them between \$40 and \$50 an acre clear of all expenses. A certain price per ton is guaranteed producers for their beets at the beginning of the year, and they are also paid a premium if the beets contain above a certain sugar content. It might be well for our Crow Wing county farmers to look into this matter.

RELIEF FOR WAR VETERANS

The Sweet bill, which has just become a law, consolidates and co-ordinates the various agencies handling soldier relief, and contains many new features which greatly liberalize the relief work. More adequate compensation is allowed for partial disability and the definitions of what constitutes partial disability have been liberalized. Hospitalization and medical treatment may now be given all men suffering from any disease or injury which originated during their term of service. All eye, ear, nose and throat troubles are included, although they were not under the old legislation. The terms of war insurance remain the same, but the methods for reinstatement of policies which have lapsed have been greatly simplified and the time for reinstatement extended. Compensation under the bill may now be claimed for one year from the passage of the law.

UNEMPLOYMENT FIGURES

The bare figures given out by the Labor Department showing that 5,735,000 persons are out of work are rather misleading. These figures may be correct, but conditions are not as bad as in the fall of 1914, just before the United States began to profit from European war contracts. At that time about 7,000,000 were out of employment. Besides, the unemployment figures now, it is stated, are compared to peak employment reports, immediately following the war, when there was boom business on all sides. As at that time women, boys and girls were employed, it will be readily seen that the number of what might be called regular employees who are out of work is a long way from the 5,735,000 reported now, and the 7,000,000 of seven years ago.

LEAGUE OF WOMEN VOTERS

It is no doubt very gratifying to the Minnesota League of Women Voters to know that several of their prominent working members have been nationally in demand this summer, notably Miss Marguerite Kneubuhl, director of political education, and Mrs. Sumner T. McKnight, chairman of the Fifth District League and National League treasurer.

The chief work of the Minnesota League this year, they announce, will be to keep the eyes of the women of the state focussed on the proceedings of the international conference which will convene in Washington on Armistice day. Plans are under way for the liberal dissemination of news to every part of the state in regard to the sittings of the conference.

THE WHEAT HARVEST

Reports of progress being made in the threshing of wheat over the Northwest are somewhat mixed. Some recent threshing returns in North Dakota were disappointing, as the yields were not as great as expected in places. The general quality of wheat,

however, is above the average. The prevailing wheat prices do not appear to be very tempting to farmers who are able to hold their wheat, and there is a tendency in some districts to store their grain. At several points in North Dakota new wheat is being hauled direct from the threshing machines to elevators and is being stored for the present.

FOOD PRICES INCREASE

An unusually interesting compilation of the Labor Department shows an increase of 2.7 per cent in retail food prices in July over June prices. The prices of wholesale foodstuffs advanced 1.5 per cent and wholesale farm products 1.75 per cent.

In St. Paul the general increase in prices was 9 per cent, in Minneapolis 8 per cent. In previous months decreases in food prices were larger in St. Paul than elsewhere, which may account for the unusual condition experienced last month.

Of forty-three articles on which retail prices were obtained sixteen showed increases, and decreases were noted in twenty-three articles.

CUT TAXES OVER \$790,000,000.

Chairman Fordney, of the House ways and means committee, says the nation's tax bill will be cut \$193,640,000 this fiscal year, \$377,790,000 in the calendar year 1922, and \$790,330,000 in 1923, by the tax revision bill framed by the Republican members of his committee. Applying to individual taxpayers the net difference of \$790,330,000 between the losses and gains, Mr. Fordney says they represent a reduction of \$7 per capita, "or a saving to the average family of \$35 per year." It is expected that a vote will be taken on the bill late Saturday afternoon.

The war's aftermath finds a great many men out of employment. The government cannot find an immediate remedy for such an economic condition, but the present administration is doing everything possible to afford all the relief that can be obtained through legislation and administration.

It is said that Germany is taking advantage of the depression in shipping by buying cheap ships wherever they can be obtained. That indicates something of the competition the United States must meet. Our ships, built at exorbitant war-time costs, must compete with German ships bought at less than normal prices.

It is stated that prices of men's clothing and woolen goods for next winter and spring wear are expected by dealers to be at about their present levels. Manufacturers and jobbers believe that quotations have become stabilized after a long period of unsettlement.

A Washington Dispatch says the Democratic members of the House at a caucus pledged themselves to vote against the Republican tax revision bill. Sure. Could they be expected to do anything else?

The Slayton Herald declares that "with freight and passenger rates where they are, normal times can never be obtained, for a great percentage of all the costs goes to the railroads."

The Columbia Record complains bitterly that "after paying the bootleggers and the tax collectors, a hard-working citizen has very little left."

Government by dictation at Washington has been superseded by "government by understanding."

C. C. KYLE

To Act as N. P. Storekeeper During Sick Leave of O. C. Wakefield, is Former Brainerd Man

Appointment of C. C. Kyle, former Brainerd man, as acting general storekeeper of the Northern Pacific railroad, to succeed O. C. Wakefield, general storekeeper, has been announced.

Mr. Wakefield has been granted a six months' leave of absence on account of ill health. Mr. Kyle's appointment was effective Thursday.

Road Contacts Let

The contract for the Hackensack Longville road was let at Walker Tuesday for construction and grading. State aid will be given on this project. The three and one-half miles between Wadena and Cass counties was also let Tuesday. The balance of the Ballclub-Cass Lake road will be let the first of the year say officials.

That's All the Difference.

mate happiness was strewn.

Raymond McKee, a popular player, is Miss Mason's leading man in "Lovetime."

"The Purple Cipher" is Tale of Mystery, Adventure and Surprises With Earl Williams

"The Purple Cipher," which will be shown at the Lyceum theatre Sunday afternoon and night, is a fast-moving melodrama of Oriental intrigue and American nerve and resourcefulness. It gives Earl Williams one of the strongest roles he has had in some time and in a plot filled with intense situations and thrilling moments.

There are also some exceptional fine short subjects on the same program.

Annual Rainfall.

There has been recalculated from recent data the amount of rain annually falling upon the earth's surface. It is found that it is equivalent to a layer of water of the uniform depth for the whole globe of about 35 1/2 inches. The amount falling on the land is equivalent to a uniform depth of 29 1/2 inches; considering only the land which is drained by rivers flowing into the sea, it is calculated that only 30 per cent is returned to the ocean, and that the rest is removed by evaporation.

BY MANY BRAINERD WOMEN

To Make New Hospital Functioning Center of Medical and Surgical Service to People

At a meeting of representative Brainerd women held at the Northwestern hospital yesterday afternoon, preliminary steps were taken toward the organization of the Council of the Northwestern Hospital Health Service Society which has been planned to serve as a clearing house through which claims for service without cost at the new Northwestern hospital may be considered.

In line with the policy of the Northwestern Medical and Surgical Association Inc. to make the new hospital a functioning center of medical and surgical service to the people of this region, it has been decided to place two free beds at the continuous use of patients who are financially unable to pay for hospital service.

The services of the physicians and surgeons of the hospital staff, no matter what the nature of the case may be, will be gratuitously available at all times. The only charge made will be the fee for the hospital service itself. This charge will be met by the Northwestern Hospital Health Service Society, membership in which will be open to any woman of Brainerd or vicinity by payment of an annual fee of \$1.00.

All petitions for free treatment will be received and passed upon by the council of the Health Service Society. Each case will be thoroughly investigated and the decision of the council as to the persons who will receive free treatment will be final.

"The women of Brainerd have hoped for a long time that some means might be found whereby the poor and the needy of this community might be assured of hospital care in case of illness," Mrs. W. F. Dieckhaus, who acted as temporary chairman of the meeting of yesterday, stated last evening.

"During our war work we found out the surprisingly large number of persons to whom sorely need hospital service was denied because of their inability to pay its cost. In the new Northwestern hospital we will have an agency to supply this grave need."

"The liberal policy of the doctors who comprise the new hospital staff in leaving the selection of the patients who will receive free treatment to an impartial group of women who have no connection with the hospital when, if they had cared to do so, they might have kept this matter entirely in their own hands marks the new hospital as a true community institution which, in the last analysis, belongs to the people of Brainerd," said Mrs. W. C. Rasch.

"I am sure that the council will appreciate its obligation and cooperate fully with the hospital association to the end that the most deserving patients in the community may receive the benefit of the service without cost so generously made possible for them, Mrs. Rasch stated.

Miss Eula Michael and Miss Marie Grimes told of the assistance to the city and county health services a health center such as the new hospital affords will render, especially in the care of boys and girls of school age who are deterred from obtaining needed hospital treatment because of lack of money. The plan for health service calls for the free treatment of school children who may be taken to the hospital upon recommendation of the city nurse for whatever treatment may be necessary.

Mrs. John Johnson, Mrs. T. K. Kleven and Mrs. J. A. Wilson expressed their warm approval of the health service program.

R. D. Jenkins, director of the Citizens' Sharing Program of the Northwestern Medical and Surgical Association, Inc. explained the plan whereby preferred stock in the hospital association bearing a guaranteed dividend of 6% will be offered to the public.

Mr. Jenkins stated that so far as he knew no American hospital had ever offered to take the public into partnership upon such a broad basis as the Citizens' Sharing Program proposed.

The following resolution was unanimously adopted at the meeting.

"Whereas, the Northwestern Medical and Surgical Association, Inc. has announced its willingness to provide two beds in the new Northwestern hospital which will be continuously at the disposal of persons in this community who are unable to pay for medical service, and

ROTARY CLUB HAS PICNIC FOR BOYS

Athletic Events on Land and Water Were Most Interesting Ones and Participated in by All

WINNERS IN EVENTS ARE GIVEN

Washington High School Team First, Lowell School is Second in Relay Team Race

It was a grand day for a picnic and the Rotary club distinguished itself Friday afternoon in entertaining almost 200 boys at Lum park. Large trucks hauled them to the park and returned them to the Lowell school and New Park theatre in time for suppers at home.

A feast of ice cream cones, crack-jack, peanuts, lemonade was served. Whistles were given the picnic participants and the noise of 200 whistles was almost deafening at times.

The athletic events were well patronized. School teams of four each were selected from each team by elimination races. Then a relay race was run and the Washington high school team took first and the Lowell second prize.

Members of the Washington high school team were Fred Hykes, Clarence Carlson, Lawrence Johnson and Virgil Quanstrom.

On the Lowell team were Walter Quinn, David Montgomery, Richard Marshall and Fred Branting.

Here are the winners in the other events:

75 yard dash—Clarence Carlson 1st, John Evans 2nd, Richard Marshall 3rd.

50 yard dash—Geo. Lamkin 1st, Clarence Carlson 2nd, Richard Marshall 3rd.

50 yard swimming race—Walter Quinn 1st, John Holden 2nd, Fred Hykes 3rd.

Longest distance dive—Fred Hykes 1st; James Boyle 2nd; Gilbert Hively 3rd.

BRAINERD'S ODDEST STORIES TODAY

"The boy of yesterday" said the philosopher of this "col-yum", who stole watermelons and apples, becomes the fruit raiser of today who is indignant when some kid repeats the kid tricks he was guilty of."

Just the spacing of figures made the weight of Editor Sheets' baby mount from 9 and 1/4 pounds to 91-2 pounds. Here is just the way his Journal Press printed the news item: "A baby girl arrived at the home of Editor and Mrs. R. M. Sheets Monday. The baby weighed 91-2 pounds!"

To Remove Lead in a Gunbarrel. Chemically pure and strong nitric acid will dissolve the lead and not attack the metal of a gunbarrel unless the acid becomes diluted with a little water. To remove the acid, pour all of it out and wipe the gun dry with a rag soaked in olive or cotton seed oil. Do not get the acid on the hands or clothing. If, by chance, this happens, wash it off immediately with water and then with some weak alkali.

hospital Society has been temporarily organized to provide means for determining fairly and impartially after a careful investigation of need in each instance the propriety of such applications for said free service as may be received.

Now therefore, be it resolved that this meeting of representative women of Brainerd unanimously approve the plan of organization of the Northwestern Hospital Health Service Society, and

Be it further resolved, that we express our appreciation of the broad community service policy of the Northwestern Hospital staff and that we hereby pledge ourselves to its support."

The following committee on by-laws and organization was appointed to formulate a constitution and set of by-laws to govern the society:

Mrs. W. C. Rasch, chairman, Mrs. M. A. Angel, Mrs. John Johnson, Mrs. A. J. Fitzsimmons, Mrs. Carl Bentley.

In attendance at the meeting were Mrs. A. J. Fitzsimmons, Mrs. W. C. Rasch, Mrs. M. B. Congdon, Mrs. P. A. Johnson, Mrs. John Johnson, Mrs. M. A. Angel, Mrs. W. F. Dieckhaus, Mrs. T. K. Kleven, Marie Grimes, Eula Michael, Mrs. F. Brending, Mrs. P. A. Ulfseth, Mrs. E. L. Gustafson, Mrs. J. A. Wilson, Mrs. E. Haake, Mrs. Mabel Kelly, Mrs. C. S. Bentley.

Further selections of membership on the council will be made from the surrounding towns through the medium of the various churches.

PROFESSIONAL AND BUSINESS WOMEN

Meeting Held Friday Evening at the Court House at Room of Miss Engsborg to Organize

ANOTHER GATHERING TUESDAY

Brainerd to Have Branch of National Federation of Business and Professional Women's Clubs

A Brainerd branch of the National Federation of Business and Professional Women's Clubs is to be established in Brainerd. On Friday evening representative business and professional women of Brainerd met at the new court house in the room of Miss Engsborg. Another meeting is to be held on Tuesday evening at the same place.

The Federation is non-political, non-sectarian, and, of course, self-governing and self-supporting. It proposes to promote the interests of business and professional women; to secure combined action by them; to encourage an interchange of ideas and an increase of fellowship among them; to gather and distribute information concerning opportunities and handicaps affecting them; to furnish a strong, far-reaching channel through which these women may spend their forces toward the advancement of their cause and that of other women.

The movement is one of democracy among business and professional women.

NATIONAL DAIRY SHOW

To be Held at the Minnesota Fair Grounds, Oct. 8 to 15, Great Value to Farmers

The value of the National Dairy Show, to be held this year at the Minnesota Fair Grounds, October 8th to 15th, to the agricultural interests of our country cannot be computed in dollars and cents. It means better cows, better barns, increased production, bigger earnings for the farmer. It means millions of dollars to the Northwest, and the man who will reap the reward. The dairy cow, a real business stabilizer, has come to the rescue of the farmer in days of stress. The benefit to be gained by a big attendance at the National Dairy Show eventually will revert to all attending.

It is the story of the development of the dairy industry. The dairy show, through its great educational exhibits, and the visualization of what better cows have done for the production and consequent prosperity of communities, presents a lifetime opportunity for the farmer to reap the benefits of the progressiveness of other men who have had the foresight to improve their cows and farm conditions. The choicest dairy cattle in the country will be assembled at this exposition. The most modern equipment used in the farm dairy, the creamery, the cheese factory, the distributing plant, and the ice-cream factory, will be shown. The dairy show furnishes the greatest opportunity the farmers of the Northwest ever have had to study their business from a National standpoint.

TRUNK HIGHWAY 80 PER CENT GOOD

Minnesota trunk highways are classed eighty per cent good and the remainder fair or better in the weekly condition bulletin issued by the state highway department.

General rains during the last week resulted in damage to some trunk routes and benefit to other, according to W. F. Rosenwald, chief maintenance engineer. Clay stretches were cut up by traffic after rains and patrolmen were given extra work, he explained, but on grave surfaced roads the maintenance forces were able to overcome the effects of the recent dry weather.

The new road bulletin condition by the state department as covering roads in the vicinity of Brainerd:

No. 2—Fair, Carlton to Moorhead. In detail, Carlton good, McGregor rough, construction, Aitkin good, Brainerd sandy, Motley sandy, Staples good, Wadena good, Moorhead.

No. 18—Good, Elk River, Milaca and Brainerd. In detail, Elk River fair, detour, good, Princeton good, Milaca good, Oranville good, Garrison good, Brainerd.

No. 19—Good, Brainerd, Walker and Cass Lake. In detail Brainerd good, Pine River good, Walker construction, Cass Lake.

No. 27—Good, St. Cloud, Little Falls and Brainerd. In detail St. Cloud good, detour, Royaton good, Little Falls good, Brainerd.

No. 35—Good, Aitkin, Range towns and Ely. In detail, Mille Lacs Lake good, Aitkin good, Hill City fair, Grand Rapids fair, Nashvank good, Hibbing good, Chisholm good, Buhl good, Virginia good, Gilbert good, Biwabik good, Aurora good, Tower good Ely.

Highway No. 27 will be studied intensively this week as many Elys plan on touring to St. Cloud to attend the state convention.

Modern Woodmen Picnic. Modern Woodman and Royal Neighbors are giving to have a joint picnic Saturday, 27 August at Lum park. Cars will leave hall at 2:30 p. m. and those who cannot come they can join the picnicers at the park in time for supper.

Bring a basket of good things and come early.

COULD HAVE SETTLED COAL STRIKE TWO MONTHS BEFORE MINERS QUIT HUGE LOSS AVOIDABLE SAYS CLYNES

By CHARLES McCANN,
(United Press Staff Correspondent.)

London, July 25.—British national interests demand that prevention instead of cure must be the policy to prevent repetitions of the disastrous coal strike, which has thrown hundreds of thousands of workers out of employment during the last three months, J. R. Clynes, M. P., chairman of the Labor Party, said in an interview today.

"There are three great lessons to be learned from the dispute," Clynes said.

"First, the national interest, in which the miners' interests are included, is not in considering how best to end a dispute, but how to prevent it.

"Second, the workers' leaders, who are chosen as the best men in their unions, must have power as well as responsibility, so that they can tell their fellows what is best for them if terms are offered.

"Third, employers and the government should see the folly of placing large bodies of men in a position where they must fight regardless of consequences to the country because fighting appears to them to offer the only shield against starvation.

"During the first few weeks of the coal stoppage, the real issues relating to wages were obscured by frantic condemnations of the miners' leaders who were said to be engaged in a wicked attack on the community and desired nothing other than the strangulation of British industries and the downfall of Empire interests.

"Some of this was caused by the lamentable mistake which at first prevented the working of the pumps at the mines. Had this mistake not been made, the public would have penetrated the facts more readily and would have seen the strength of the miners' case.

"The enormity of the reductions imposed the miners to use every weapon possible, and for the first time they called away the pumpmen. This was the natural answer to the owners' notices to pumpmen, as well as miners, to quit or accept drastic arbitrary reductions.

"The effect, however, was to harden opposition to the miners without either softening or improving the outlook of those who had to act for the government or speak for the mine owners.

"But the dispute should have been prevented. Had terms similar to those put forward by the government when the dispute had lasted two months been submitted for discussion two months before the stoppage occurred, there would have been no stoppage at all.

"As in the case of other great industrial disputes, the coal stoppage has shown how foolish it is for both sides to make sweeping statements as to what they will never do. Unqualified declarations of policy by either side intended to alarm or terrorize the other side seldom have the effect desired.

"Also, the appalling unemployment due to the mines dispute reveals the serious and costly defects in trades union machinery for settling great disputes. The executives, chosen as the best men in their unions, should have power to secure for their side the best terms possible. They cannot; they must submit offers made to them to a second, larger body of men not quite as good as they are, men who are influenced by men of their local unions, scattered throughout England, who are not as well in touch with the situation as are the executives. Responsibility without power and the acquirement of knowledge from continual negotiation without the freedom to make full use of that knowledge is a condition from which trades union leaders should try to emerge."

Deaths in Minnesota Increase

St. Paul, Aug. 20.—An increase of deaths in Minnesota for the year ending July 1 was reported today by Gordon Pearson, statistician for the board of health.

The increase was 800 over 1920. Deaths for the year ending July 1, 1921, total 14,116 and for the previous year 13,367. Deaths from homicide, suicide and accidents decreased while deaths from automobile accidents decreased.

Baseball Notes

Baseball is just one four-base hit after another.

Little Dickie Kerr believes his extra inning jinx has finally left him.

The Joplin club has turned outfielder Fred Barchi back to the Chattanooga club.

Pitcher Jim Reynolds, late of Kansas City and Joplin, is a new member of the Spartanburg pitching staff.

Ben Smith, first baseman, has been turned back to the Detroit Tigers by the Joplin club of the Western league.

Branch Rickey is a bear for making shifts in his lineup. He is known as one of the most proficient jockeyists in the game.

Joe Wagner, late of Toronto, has joined the Greenville South Atlantic league team.

Ted Anderson, released as manager of the Flint team, has joined the Saginaw team and will play first base under Red McKee.

Shortstop Lute Boone of the St. Paul Saints is out of the game for the rest of the season, as the result of an attack of appendicitis.

Cannibalistic Dog.

Freddie had been given a puppy which was very playful. He watched it with great concern as it ran about the room snapping at itself and trying to catch its tail. Finally he voiced his anxiety by exclaiming, "Don't you eat your self (self), doggie, we just got you yesterday."

Germany May Appeal Treaty Issue to International Arbitration

(By United Press)

Berlin, Aug. 20.—Germany may appeal many of the issues contained in the German-American peace treaty to international arbitration.

The treaty, it was learned, does not contain a declaration of Germany's guilt in starting the war. Germany would have flatly refused to sign had such a clause been included.

In many quarters the feeling prevails that difficulty over the preliminary negotiations between Dr. Rosen, foreign minister, and Ellis Dresel, American commissioner, had been smoothed out.

Fearing Mob Violence Sheriff Asks for Troops

(By United Press)

Barnstable, Mass., Aug. 20.—Fearing a negro mob would storm the jail to rescue three negroes held there, the sheriff today asked the commander of Camp Perkins to rush more troops to the scene. He said he had been informed negroes in the jungle town section of Onset, Mass., were preparing to remove from prison the three negroes who were arrested charged with attacking Miss Gertrude Butler. A white mob has twice menaced the jail threatening to lynch the negroes.

Agreement for Russian Relief is Signed

(By United Press.)

Riga, Aug. 20.—The agreement between Walter L. Brown, head of the American relief administration, and Boris Litvinov was signed here today at 11:30 in the presence of the Latvian premier.

This agreement sets up provisions under which American relief must be accorded to starving Russia. Steps for carrying out the relief were started immediately.

350 Cases of Infantile Paralysis Reported in State

St. Paul, Aug. 20.—Official figures of the state board of health today showed 350 cases of infantile paralysis reported in the state at this time. There have been twenty-seven deaths from this disease.

To Remove Paint From Cloth.

To remove paint from cloth, lay a pad of blotting paper on the side of the material on which the paint fell, and rub the other side gently with a soft piece of flannel dipped in chloroform or benzol, both of which are paint solvents, as the paint dissolves it naturally passes into the most absorbent material in contact with it—which is the blotting paper—not into the adjacent cloth. Deep stains can be completely removed by this method.

For Your Kitchen—Old or New—This Wonderful Range!

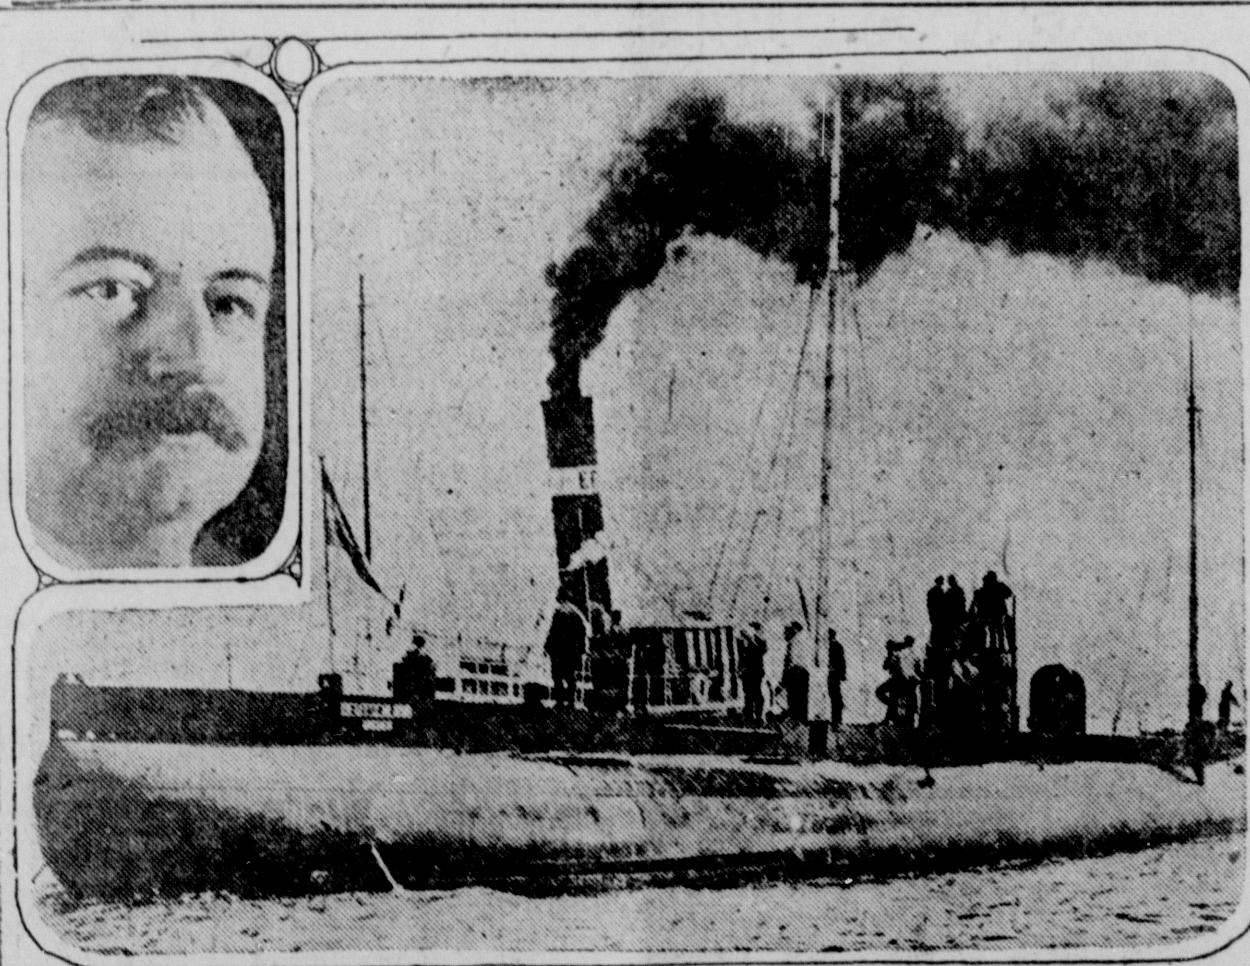

How handsome this spick and span Round Oak "Chief" Range will look in the kitchen of your home! What a help it will prove! Plan to have it! Come in and make your selection this week while our stock is complete. We will hold it for you. You can reserve it now for the lowest possible investment—see price guarantee below. All your life you have wanted some day to own a genuine Round Oak—now gratify that desire!

SHALL AMERICA OR GERMANY MAKE OUR DYES?

Senator Penrose, whose committee is considering dye question, and "Deutschland," with tug at starboard.

Shall America make her own dyes or be entirely dependent for them upon Germany?

Before the war Germany controlled the dye-making industry of the world. Even after war had begun it will be recalled Captain Koenig, of the German submarine "Deutschland," bobbed up in Baltimore one Sunday morning with his submarine filled with German dyes which American manufacturers eagerly snapped up.

But Germany could not keep this up, and in dire necessity for "colors," American businessmen had American chemists set their scientific heads to work out formulas for making dyes at home.

Before that there had been no chance to overcome the powerful Deutsche Interessengemeinschaft backed by the German government itself and abetted by some of our German diplomats in the

world over. Indeed, America was made to believe that the United States could not make dyes. Some people still believe that. And there is a constant German propaganda going out even now supporting stories that "American dyes are not fast," that "fabrics dyed with American colors fade," etc. The facts are, according to American chemists, that American colors are just as fast as any "made in Germany."

Before the war, the United States bought on an average over 43,000,000 pounds of German dyes a year, amounting to over \$9,300,000. China was the second largest purchaser from Germany. Now Great Britain, France, Italy and Japan have either imposed an embargo against German dyes or a licensing system to protect their own dye industry, leaving the United States and China as the only two big dye purchasers with

out protection against the powerful German dye trust.

The opposition to the protective embargo is made up largely of importers of German dyes who desire to purchase at a lower price. But the cost of American dyes is coming down as experience in dyes making increases. The expense to the individual is low anyhow. The cost of the dyes in a dozen pairs of socks is about two cents; in a suit of clothes only fifty cents. If the dyes cost nothing the price of the clothing would remain the same.

Now the question is, shall all that American industry has learned to produce be scrapped? When the war ended 184 American dye plants were ready to go right on as necessary industrial organizations in time of peace. This number has increased now to 214 with an output worth more than \$53,000,000 a year.

COULD HAVE SETTLED COAL STRIKE TWO MONTHS BEFORE MINERS QUIT HUGE LOSS AVOIDABLE SAYS CLYNES

By CHARLES McCANN,
(United Press Staff Correspondent.)

London, July 25.—British national interests demand that prevention instead of cure must be the policy to prevent repetitions of the disastrous coal strike, which has thrown hundreds of thousands of workers out of employment during the last three months, J. R. Clynes, M. P., chairman of the Labor Party, said in an interview today.

"There are three great lessons to be learned from the dispute," Clynes said.

"First, the national interest, in which the miners' interests are included, is not in considering how best to end a dispute, but how to prevent it.

"Second, the workers' leaders, who are chosen as the best men in their unions, must have power as well as responsibility, so that they can tell their fellows what is best for them if terms are offered.

"Third, employers and the government should see the folly of placing large bodies of men in a position where they must fight regardless of consequences to the country because fighting appears to them to offer the only shield against starvation.

"During the first few weeks of the coal stoppage, the real issues relating to wages were obscured by frantic condemnations of the miners' leaders who were said to be engaged in a wicked attack on the community and desired nothing other than the strangulation of British industries and the downfall of Empire interests.

"Some of this was caused by the lamentable mistake which at first prevented the working of the pumps at the mines. Had this mistake not been made, the public would have penetrated the facts more readily and would have seen the strength of the miners' case.

"The enormity of the reductions impelled the miners to use every weapon possible, and for the first time they called away the pumpmen. This was the natural answer to the owners' notices to pumpmen, as well as miners, to quit or accept drastic arbitrary reductions.

"The effect, however, was to harden opposition to the miners without either softening or improving the outlook of those who had to act for the government or speak for the mine owners.

"But the dispute should have been prevented. Had terms similar to those put forward by the government when the dispute had lasted two months been submitted for discussion two months before the stoppage occurred, there would have been no stoppage at all.

"As in the case of other great industrial disputes, the coal stoppage has shown how foolish it is for both sides to make sweeping statements as to what they will never do. Unqualified declarations of policy by either side intended to alarm or terrorize the other side seldom have the effect desired.

"Also, the appalling unemployment due to the mines dispute reveals the serious and costly defects in trades union machinery for settling great disputes. The executives, chosen as the best men in their unions, should have power to secure for their side the best terms possible. They cannot; they must submit offers made to them to a second, larger body of men not quite as good as they are, men who are influenced by men of their local unions, scattered throughout England, who are not as well in touch with the situation as are the executives. Responsibility without power and the acquirement of knowledge from continual negotiation without the freedom to make full use of that knowledge is a condition from which trades union leaders should try to emerge."
